Why Do I Need a Safety Cabinet?

One of the leading causes of industrial fires is the improper storage and handling of flammable liquids. Safety cabinets help you safely store fuels, chemicals, and solvents to reduce the risk of fire and protect your people and property.

Safety cabinets serve critical functions:

- Improve awareness—high-visibility cabinet color and prominent labeling identify potentially hazardous chemicals
- Keep dangerous liquids safely organized and segregated
- Ensure safe evacuation time in the event of a fire

- Provide compliance with federal OSHA regulations and the National Fire Protection Association
- Increase maximum allowable quantities of flammable and combustible liquids in control areas

- Improve efficiency by locating materials near point-of-use
- Improve security with locking mechanism

Considerations when selecting a safety cabinet

- Federal, state, and local compliance requirements
- Size and type of container being stored
- Capacity needed
- Type of chemical being stored
- Security and safety features such as U-Loc™ padlockable handle, SpillSlope® shelves, Haz-Alert™ warning labels, all welded construction

Also look for cabinets that carry independent, third party certification from FM Approvals (FM-approved) or MPA Dresden (GS). These marks signify the cabinet will perform as expected and support property loss prevention.

While regulatory codes do not mandate the specific color for a safety cabinet, industry has customarily observed certain colors for defined liquids.

Yellow for flammable liquids	**Green for pesticides and insecticides**
Red for paints, inks, and other combustible liquids	**Silver or neutral colors for laboratory settings**
Blue for corrosives and hazardous liquids	**White, beige or gray for waste or outdoor lockers**

Regulations do, however, specify construction details and the type of door style required

Code	Flammable Safety Cabinet Door Styles
NFPA 30 and NFPA 1, 2012 ed	Permits either manual or self-close doors
IFC	Mandates use of self-close doors only
NFPA 400	Mandates use of self-close doors only
Contact local jurisdictions for specific requirements.	

Compliance

Each Justrite steel safety cabinet meets at least one or more of the following regulations:

- OSHA 1910.106
- National Fire Protection Association (NFPA) Flammable Liquid Code 30
- NFPA Fire Code 1
- International Fire Code (IFC)
- National Fire Code of Canada
- NFPA Hazardous Materials Code 400
- European EN standard 14470-1 and 14727

Most cabinets are FM approved and all are backed by an industry-first, ten-year warranty.

Safety expertise since 1906

With over 300 models ranging in capacities from 4- to 115-gallons (15- to 435-liters), you can be assured of getting the highest protection, convenience, and durability in a safety cabinet that meets your specific need. If you don't find what you want, ask about our Custom Cabinet Program offering you the ability to design to your own specifications.

Use safety cabinets to keep your people and facility safe from a devastating fire. Get details on regulations, our cabinets and other products—visit our website to request a copy of our popular *RedBook™... Your Guide to Handling Flammable Liquids Safely*.
Justrite® Sure-Grip® EX Safety Storage Cabinets offer top performance for flammable liquid storage and protection.

EXtra safe, EXtra sturdy, EXtra secure

Fusible links hold doors wide open and melt at 165°F (74°C) for automatic closure (on self-closing models).

Sturdy 18-gauge (1-mm) double wall steel construction with 1-1/2-in (38-mm) of insulating air space.

Easy-close, self-latching doors; U-Loc™ handle (shown below) does not require manual rotation to engage mandatory three-point latch.

Fully welded, not riveted, construction holds squareness for longer life and offers greater protection in a fire since air gaps are reduced.

Continuous piano hinge provides smooth closure.

Durable and chemical-resistant, lead-free powder-coat paint finish, inside and out, retains high gloss look and minimizes the effects of corrosion and humidity.

Dual vents with built-in flash arresters strategically placed at bottom and opposite top.

Concealed self-close mechanism provides obstruction-free access to top shelf space. Self-indexing doors guarantee they will close in sequence and ensure a tight closure from top to bottom (on self-closing models). Patent pending
Patented SpillSlope® safety shelves direct spills to back and bottom of leakproof sump. Adjustable on 3-in (76-mm) centers, they meet ANSI standards with a 350-lb (159-kg) safe allowable load.

Welded shelf hangers interlock with shelf to offer maximum "nonslip" stability with no flimsy brackets to lose.

2-in (51-mm) leakproof containment sump holds leaks and meets EPA requirements.

45-gallon (170-liter) self-close door style

FM APPROVED

10 Year Limited Warranty

Complies with OSHA 29 CFR 1910.106 and NFPA Code 30, section 9.5.3; FM Approved

Adjustable leveling feet make it easy to balance cabinets on uneven surfaces.

Built-in grounding connector (on outside side panel) for easy grounding. Shown here with optional ground wire 08500.
Stainless steel, 3-point bullet self-latching system provides easy, fail-safe, positive door closure with increased heat resistance. Patent pending

Easily secure your contents–U-Loc™ handle includes double key set or can be padlocked (not included) for greater security. Patent pending

Patented SpillSlope® safety shelves direct spills to back and bottom of leakproof sump; adjust on 3-in (76-mm) centers for versatile storage. Meets ANSI MH28.1

Welded construction holds squareness for long life; door astragal provides extra sturdiness.

Highly visibile HazAlert™ reflective label provides warning–"Flammable – Keep Fire Away" in English, Spanish, and French.

JUSTRITE®

Using multiple cabinets helps you organize and segregate dangerous liquids.

Sure-Grip® EX Classic Safety Cabinets
Safe, dependable flammable liquid storage and protection

• *Independently fire tested and approved by FM Approvals.*

• *Avoid fines—meet regulations, fire codes, and insurance requirements.*

Protect workers, reduce fire risks, and improve productivity by storing flammable fuels and chemicals in code-compliant safety cabinets. Designed to meet OSHA and NFPA 30 standards, Sure-Grip® EX cabinets are constructed of sturdy 18-gauge (1-mm) thick double-wall, welded steel with 1-1/2-in (38-mm) of insulating air space for fire resistance. High-performance, self-latching doors close easily and securely for maximum protection under fire conditions. Fail-safe closing mechanism ensures three-point stainless steel bullet latching system works every time.

For added security, U-Loc™ handle comes with a cylinder lock and key set or accepts an optional padlock. Haz-Alert™ reflective warning labels are highly visible under fire conditions or during power outages when illuminated with a flashlight.

Patented SpillSlope® galvanized steel shelves direct spills to back and bottom of a leakproof sump. They adjust on 3-in (76-mm) centers for versatile storage. Cabinets also feature a leakproof 2-in (51-mm) bottom sump, dual vents with flame arresters, four adjustable self-leveling feet, grounding connector and trilingual warning label. Durable powder-coat finish provides excellent chemical resistance.

Self-closing models also meet the International Fire Code. They shut and latch automatically when a fusible link melts at 165°F (74ºC) under fire conditions. Unique, concealed self-closing mechanism offers obstruction-free access to contents. All cabinets are backed by a ten-year warranty.

Sure-Grip® EX Safety Cabinets—Optional Colors
Follow company-established color coding practices

Using color coding in your storage practices helps identify, organize, and segregate liquids—see page 6 for more details. These cabinets in red, gray, and white have all the same safety benefits and high performance features found in Justrite's classic-style yellow cabinets for the storage of flammable fuels and chemicals.

For extra shelves, see page 8.

Self-latching doors require a simple push to securely activate the three-point latch.

Sure-Grip® EX Safety Cabinets—Single Door
Full size, full storage capacity safety cabinets with a unique single-door design

These cabinets have all the same features and benefits as Justrite's popular classic-style safety cabinets, with one convenient bi-fold, sliding door. Self latching and self closing, it is equipped with a fusible link to hold the door open during use and melts at 165°F (74°C) to automatically close under fire conditions. Heavy-duty steel dual-track guidance system at top and bottom ensures smooth closure. Industrial-strength spring-loaded piano hinge provides long lasting operation.

*OSHA 29CFR 1910.106(d)(3) states that not more than 60 gallons (227L) of Category 1, 2, or 3 flammable liquids, nor more than 120 gallons (454L) of Category 4 flammable liquids may be stored in a safety cabinet.

Place Slimline cabinet where floor space is limited.

Sure-Grip® EX Slimline Safety Cabinets
Gain valuable storage space even when floor space is tight

- Welded, 18-guage (1-mm) steel double wall with 1-1/2-in (38-mm) insulating air space.

- U-Loc™ handle comes with double key set and accepts optional padlock for added security.

Fully compliant cabinets with compact design feature fire-resistant construction for the safe storage of flammable and combustible liquids. Use alone or alongside larger safety cabinets for expanded storage when floor space is limited. The standard Slimline cabinet is 18-in (457-mm) deep and fits flush alongside a 45-gallon (170-L) cabinet. The deep Slimline cabinet is 34-in (864-mm) deep and fits alongside a 60- or 90-gallon (227- or 341-L) cabinet. Both cabinets measure only 23-1/4-in (591-mm) wide.

Use color coding in your storage practices to organize and segregate liquids.

Slimline safety cabinets have all the same features as the larger safety cabinets including, a three-point, self-latching door with self-latching handle, a 2-in (51-mm) leakproof sump, and dual vents with integral flame arresters. Built-in grounding connector allows for proper grounding to reduce static build-up. Cabinets include three SpillSlope® galvanized steel shelves that direct spills to back and bottom into a 2-in (51-mm) leakproof sump. Under fire conditions when illuminated by a flashlight, highly reflective Haz-Alert™ warning labels shine brightly to alert emergency personnel to volatile contents.

Cabinets meet NFPA and OSHA regulations and are FM-approved. Self-closing models also comply with the International Fire Code.

892200   895400

Small cabinet footprint fits in the tightest spaces.

When additional storage space is needed, modular size fits nicely alongside existing cabinets.

Sure-Grip® EX Piggyback Safety Cabinets

Expand storage and safely segregate liquids

- *Easily add up to 17-gallons (64-L) of additional capacity to existing cabinets.*

- *Fully compliant, fire-resistant design reduces the risk of fire.*

Create a safe storage area for fuels, chemicals, or solvents without taking up valuable floor space. Piggyback cabinets are designed to mount on top of 30- and 45-gallon (114- and 170-L), manual or self-closing Sure-Grip® EX cabinets. They can also be used independently as a benchtop cabinet or stacked to provide additional storage. Turn it into a wall-mount cabinet with optional wall hanger assembly No. 25950.

The Piggyback cabinets have a lower-height, but offer the same protection as Justrite's taller safety cabinets. Constructed of sturdy 18-gauge (1-mm) thick double-wall, welded steel, they feature 3-point, self-latching doors that close easily and securely for maximum protection under fire conditions. Leakproof 2-in (51-mm) captures dangerous spills. U-Loc™ handle includes double key set and accepts optional padlock for increased security.

Cabinets meet NFPA and OSHA regulations and are FM-approved. Self-closing models also comply with the International Fire Code.

Piggyback cabinets can be stacked on each other or taller cabinets for better organization of liquids.

Sure-Grip® EX Countertop Safety Cabinets

Use on workbenches for easy access to often-used liquids

Get the fire protection found in larger sized Justrite® safety cabinets in a compact design measuring only 22-in (559-mm) high. Use these cabinets when storing lesser quantities of flammable liquids at a workstation. Portable size keeps work areas flexible. Includes one SpillSlope® safety shelf for storage of multiple small containers. Self-close model with concealed closing mechanism utilizes entire internal space for storage. For more countertop space, choose optional wall hanger assembly for easy mounting on a wall.

Place cabinets near points-of-use to save time by not going to a far away central storage area.

Sure-Grip® EX Compac Safety Cabinets

FM-approved safe storage for up to 15-gallons (57-liters) of flammable liquids

Fully compliant, compact-sized cabinets fit almost anywhere and provide protection even when space is at a premium. Popular 12-gal (45-L) size measures 35-in (889-mm) high to fit under most workbenches. Fire resistant design includes double-walled steel construction with 1-1/2-in (38-mm) of insulating air space and 3-point stainless steel bullet latch for fail-safe, positive door closure. Adjustable SpillSlope® safety shelf directs spills to back and bottom of leakproof 2-in (51-mm) sump. U-Loc™ handle comes with double key set and accepts optional padlock for security. Cabinets also feature dual vents with flame arresters, adjustable leveling feet, and grounding connector to prevent static build-up.

Cabinets meet NFPA and OSHA regulations and are FM-approved. Self-closing models also comply with the International Fire Code.

Mini Safety Cabinet

Safe flammable storage even when space is at a minimum

• *Small footprint—place cabinet within quick reach.*

• *Maximize cabinet space with an adjustable shelf.*

Keep most often used flammables for cleaning and maintenance within easy reach. Mini Safety Cabinet only measures 17-in (432-mm) wide x 8-in (203-mm) deep yet has the same great features as our larger cabinets—double-wall construction, 3-point latch, leakproof sump, U-Loc™ handle with double key set, and chemical-resistant powder-coat finish. Three bungee cords keep contents in place when transporting.

Aerosol Can Benchtop Safety Cabinet

Place anywhere for hassle-free organization of aerosol cans

• *Two roll-out shelves fit up to 24 aerosol cans.*

• *Welded, 18-gauge (1-mm) steel double-wall with 1-1/2-in (38-mm) insulating air space.*

Designed to store aerosol cans, cabinet features 24-gauge (0.6-mm) galvanized steel roll-out shelves with "easy-glide" plastic rollers and stop guard protection. Each shelf comes with an insert that holds twelve 2-3/4-in (70-mm) diameter x 10-in (254-mm) tall cans. Inserts are removable for easy cleaning. Small in size yet the aerosol cabinet has safety features found in our larger cabinets—double-wall construction, 3-point latch, U-Loc™ handle with double key set, and chemical-resistant paint finish.

Cabinet meets NFPA and OSHA regulations.

JUSTRITE®

Conveniently locate liquids near work areas.

Sure-Grip® EX Undercounter Safety Cabinets

Conveniently locate liquids near work areas

• *Back wall vents with flame arresters permit venting if needed.*

• *Recessed toe kick improves ergonomics, mounts flush with other cabinetry.*

Take advantage of undercounter space to safely store flammable liquids. Each cabinet is sized and fitted with a recessed 3-1/2-in H x 2-1/2-in D (89-mm x 64-mm) toe kick to allow the user to stand closer to the work surface, which means less leaning and better ergonomics. Fully compliant to NFPA and OSHA regulations, cabinets feature all-welded 18-gauge (1-mm) double-wall steel construction with 1-1/2-in (38-mm) insulating air space for fire resistance. Adjustable SpillSlope® shelf directs any spills to back and bottom of a leakproof 2-in (51-mm) sump. Three-point stainless steel bullet latch provides fail-safe, positive door closure. Flush-mounted U-Loc™ handle comes with double key set and accepts optional padlock for added security. Self-leveling feet adjust to 1-1/8-in (29-mm) for alignment on uneven floors. When fully extended, cabinet heights raise 5/8-in (16-mm).

Sure-Grip® EX Wall-Mount Safety Cabinets

Make the most of usable storage space—hang cabinet above workbench for easy access

Gain storage space near work areas without taking up extra floor space. Eye-level positioning allows for easy access to solvents. Cabinets offer the same protection as Justrite's larger cabinets—including double-walled construction, 3-point self latching doors, leakproof sump, dual vents with flame arresters, grounding connector, and SpillSlope® safety shelving. Models come complete with mounting hardware.

Sure-Grip® EX Corner Safety Cabinet NEW

Maximize corner space while retaining full storage capacity

Designed especially for environments where space is at a minimum, this cabinet fits nicely into an empty corner to maximize the amount of space available for storage. Improve efficiency by locating materials near point-of-use and get the most out of limited floor space. Available in 30- (114-L) and 45-gallon (170-L) capacities, with both manual and self-closing door styles, Sure-Grip® EX corner safety cabinets help to increase maximum allowable quantities of flammable and combustible liquids in control areas.

Designed to meet OSHA, NFPA 30, and NFPA 1 standards, corner safety cabinets have many of the same features as the classic line of flammable safety cabinets including a fail-safe, three-point self latching door, double-walled construction with 1-1/2-in (38-mm) air space, dual vents, a grounding connector and a large trilingual warning label identifying contents. A leakproof 2-in (51-mm) sump captures dangerous spills.
Safely store nine 5-gal (19 L) safety cans with room to spare.

JUSTRITE®

UV-protected powdercoat paint finish for long wearing protection.

Safesite™ Combo Safety Chest NEW

Provide safe, secure storage for flammables along with tools and other valuables

Protect flammables from ignition sources, misuse or theft by storing them in a specially designed Safesite Combo Safety Chest. It provides protected storage of fuels, paint thinners, solvents, or other flammables typically found at construction and utility jobsites.

Top quality features include heavy-duty, 16-gauge welded steel body finished in a tough UV-protected powdercoat paint that stands up to abusive conditions. Fire resistant 16-gauge steel safety compartment liner with 18-gauge lid provides double walled protection—accepts 5-gallon (19-L) Justrite safety cans. Designed with dual security, Safesite™ provides superior protection from unauthorized access. Dual security—outside lid offers padlock security while inside compartment features U-Loc™ technology.

Sure-Grip® EX High Security Safety Cabinets

For environments requiring increased security against unauthorized access

• *High visibility steel bar across both doors deters prying.*

• *Fully compliant, fire-resistant design.*

Use these cabinets in higher-risk environments such as correctional facilities, construction site trailers, schools and maintenance areas without worrying about break-ins. Steel bar across both doors, padlock holes that accept optional No. 5 Master Lock® and fully welded, 18-gauge (1-mm) double-wall construction deter prying.

Cabinets come in four colors—yellow and red for flammables and combustibles, green for pesticides and blue for corrosives. Adjustable SpillSlope® shelves direct any spills to back and bottom of a leakproof 2-in (51-mm) sump. The green and blue cabinets also include poly liners for shelves along with a poly sump liner to protect against corrosion. Three-point stainless steel bullet latch provides fail-safe, positive door closure. Cabinets include dual 2-in (51-mm) vents with integral flame arresters, built-in grounding connector, and leveling feet for stability on uneven surfaces.

Cabinets meet NFPA and OSHA regulations and are FM-approved.

Crossbar and sidebar provide double-layer steel strength—accepts No. 5 Master Lock® padlock for security.

Premium Insulated Cabinets—ULC Listed

Double-wall construction with 2-in (55-mm) thick high-density insulation throughout provides increased fire protection

• *Welded, 18-gauge (1-mm) steel double-wall with insulation.*

• *Intumescent tape expands to eight times its volume to seal doors.*

These cabinets withstand the stringent fire testing requirements of the National Fire Code of Canada. A full 2-in (51-mm) of high-density insulation within the walls, doors, ceiling and floor plus intumescent tape that expands to seal doors provide the ultimate fire protection.

Adjustable shelves direct any spills to back and bottom of a leakproof 2-in (51-mm) containment sump. U-Loc™ handle comes with double key set or accepts optional padlock for added security. Cabinets feature a three-point lock, dual 2-in (51-mm) vents with integral flame arresters, and leveling feet.

Cabinets are ULC listed, and meet NFPA and OSHA regulations.

JUSTRITE®

Ninety minutes of fire protection provides high level of safety when point-of-use storage is required.

1. Upper and lower vents with butterfly valve close automatically at 158°F (70°C) under fire conditions. Bright interior provides maximum visibility in low light conditions to quickly identify contents.

2. Independent cylinder locks on each door includes locking state indicator (red/green).

3. Integrated transport base accepts pallet jack for easy repositioning of empty cabinets. Accepts optional, removable base cover.

4. Removable sump with separate detachable perforated insert allows spills to flow into sump for easy cleaning, and keeps containers elevated to stay clean and dry.

## 90-Minute EN Safety Storage Cabinets NEW

Extreme fire resistance for high risk environments— store flammables with 90-minutes of protection

- *EN, OSHA and NFPA compliant—Independently fire tested and approved by FM Approvals and MPA Dresden.*

- *Hybrid-close door action—manual close doors stop in any position, but self close in the event of a fire to protect contents.*

- *Security—independent cylinder locks on each door includes locking state indicator (red/green).*

Constructed using multiple layers of fire-resistant gypsum and mineral fiber insulation, cabinet body has a rugged powder coated steel exterior that provides excellent corrosion resistance. Under fire conditions, intumescent strips expand and hermetically seal all gaps to reduce heat entering the cabinet, providing 90-minutes of content protection and extended evacuation time. Hybrid style doors open or close manually and include a damper that adjusts the force needed to move the doors. In the event of a fire, the built-in fusible link system releases to allow automatic closure of doors at 122°F (50°C). Cabinets are EN compliant, FM-approved and meet NFPA 30, NFPA 1, and OSHA standards.

Powder-coat finish steel shelves adjust on 1-1/4-inch (32-mm) increments and have a load capacity of 165-lbs (75-kgs). Shelves with 1-inch (30-mm) high ledge prevent small containers from easily sliding off. Removable bottom sump with detachable perforated insert features a 3-sided lip seal to ensure leaks or spills from shelves are captured at the bottom of the 3-in (76-mm) sump, keeping containers stored in the sump clean and dry.

Haz-Alert™ reflective tri-lingual warning labels are highly visible under fire conditions or during power outages when illuminated with a flashlight. Cabinets also feature adjustable leveling feet, an integrated transport base for easy repositioning (base cover optional), and mandatory air vents per EN 14470-1. Vent butterfly valve closes securely at 158°F (70°C) in the event of a fire. Vents include flame arresters and caps for FM compliance.

JUSTRITE®

30-Minute EN Safety Storage Cabinets NEW

*Safely store and segregate flammables—30 minutes of extreme fire-resistance*

- *EN, OSHA and NFPA compliant—Independently fire tested and approved by FM Approvals and MPA Dresden.*

- *Hybrid-close door action—manual close doors stop in any position, but self close in the event of a fire to protect contents.*

Designed to provide 30-minutes of fire resistance, attractive two-toned yellow cabinet is constructed with a body of melamine resin and flame retardant special plates, and a steel door front covered by a textured, durable powder-coat finish. Under fire conditions, special intumescent protection strips expand and seal hermetically to close gaps between the door(s) and frame to reduce heat entering the cabinet. Hybrid style door(s) operate manually and stop in any position, but in the event of a fire, the built-in fusible link system will melt and release to allow automatic closure of door(s) at 122°F (50°C). Cabinets are EN compliant, FM-approved and meet NFPA 30, NFPA 1, and OSHA standards.

Cabinets have many of the same features as the 90-minute model, including leakproof, removable bottom sump with perforated insert, adjustable powder-coat finish steel shelves with 1-inch (30-mm) lip and load capacity of 165-lbs (75-kgs), Haz-Alert™ warning label, and a ground connection. Air vents close securely at 158°F (70°C) in the event of a fire and include flame arresters and caps. Independent cylinder lock on door(s) provide added security. Bright interior color offers maximum visibility to stored goods. Integrated transport base makes it easy to reposition empty cabinets. Accepts removable base cover (optional).

Position single-door extreme fire resistance cabinets where space is limited. Easily add a second cabinet if storage needs increase.
Cabinet mover helps transport cabinets easily through doorways and spaces where a pallet jack is not practical.

Sure-Grip® EX Under Fume Hood Safety Cabinets

Fully compliant and designed for safe storage of solvents and flammables in laboratories

- *Welded, 18-gauge (1-mm) steel double-wall with 1-1/2-in (38-mm) insulating air space.*

- *Back wall vents with built-in flame arresters.*

- *Stainless steel, 3-point bullet self-latching system.*

Perfect for use in laboratories. Cabinets measure 35-3/4-in (908-mm) high to fit under fume hoods, benches or counters. The 4-inch (102-mm) high x 3-in (77-mm) deep toe kick allows the hood user to stand closer, which means less leaning and better ergonomics. Cabinets feature an adjustable SpillSlope® shelf that directs any spills to back and bottom of a leakproof 2-in (51-mm) sump. U-Loc™ handle comes with double key set and accepts optional padlock for added security. Durable powder-coat finish, inside and out, provides maximum chemical resistance. Cabinets come in three colors—safety yellow, stainless silver or light neutral to complement laboratory settings. Single-door cabinets are available in either left or right-hinge door configuration. Highly reflective Haz-Alert™ hazard labels at top and bottom provide easy visibility.

Note: 35-3/4-in (908-mm) height includes leg levelers installed and extended 5/8-in (15.9-mm).

Use these cabinets for the safe storage of flammables under fume hoods, benches or counters.

Sure-Grip® EX Flammable Waste Safety Cabinets

Temporary on-site storage solution for flammable waste

- *Large "Flammable Waste" warning label on door identifies contents.*

- *Welded, 18-gauge (1-mm) double-walled steel with 1-1/2-in (38-mm) insulating air space for fire resistance.*

Use these safety cabinets for the temporary collection and segregation of flammable liquid waste. Clearly marked cabinets prevent mix up of contents. Cabinets feature adjustable SpillSlope® shelves that direct any spills to back and bottom of a leakproof 2-in (51-mm) sump. Three-point stainless steel bullet latch provides fail-safe, positive door closure. U-Loc™ handle comes with double key set and accepts optional padlock for added security. Durable powder-coat finish, inside and out, provides maximum chemical resistance. Cabinets feature dual 2-in (51-mm) vents with integral flame arresters, built-in grounding connector, and leveling feet for stability on uneven surfaces.

Cabinets meet NFPA and OSHA regulations and are FM approved. Self-closing models also comply with the International Fire Code.

Sure-Grip® EX Flammable Waste Drum Storage Cabinets

Safely segregate and store larger quantities of flammable waste

- *White color quickly identifies cabinet for waste liquid storage.*

- *Half-depth shelf provides additional storage—sized to provide enough space to accommodate a drum equipped with a pump or funnel.*

Temporarily store flammable liquid waste in drums awaiting pick up and disposal in these cabinets for vertically stored drums. Cabinets are constructed of sturdy 18-gauge (1-mm) thick double-wall, welded steel with 1-1/2" (38-mm) of insulating air space for fire resistance. High-performance, self-latching doors close easily and securely for maximum protection under fire conditions. Fail-safe closing mechanism ensures three-point stainless steel bullet latching system works every time. U-Loc™ handle comes with a cylinder lock and key set and accepts an optional padlock for added security. Cabinets also feature dual vents with flame arresters, four adjustable self-leveling feet and built-in grounding connector to prevent static build-up. Durable powder-coat finish provides excellent chemical resistance.

JUSTRITE®

Spacious design allows cabinet to be used as a pumping station.

Sure-Grip® EX Vertical Drum Safety Cabinets

Safely store solvent filled drums

- *Fully compliant with OSHA and NFPA regulations.*
- *Sturdy 18-gauge (1-mm) steel, welded for strength and greater fire resistance.*

Use these vertical drum safety cabinets to safely store 30- to 55-gallon (110- to 200-L) drums. The removable, adjustable, half-depth shelf provides enough head space to accommodate a drum with a pump or funnel so the cabinet can be used as a pumping or waste accumulation station, and also allows you to store additional materials or spare accessories.

Fire-resistant design features double-wall construction with 1-1/2 in (38-mm) of insulating air space, dual 2-in (51-mm) vents with flame arresters, a three-point bullet latching system for failsafe, positive closure, and a 2-in (51-mm) sump to capture spills. U-Loc™ handle comes with double key set and accepts optional padlock for added security. Built-in grounding connector allows for proper grounding to reduce static build-up.

896260

896160
Models with drum rollers facilitate the movement of heavy drums; models with removable drum support keeps drum elevated off cabinet sump.

Sure-Grip® EX Double-Duty Drum Safety Cabinets

Store drum and safety cans in a single cabinet

Use these double-duty cabinets to safely store flammable liquids contained in drums and safety cans. They feature two separate compartments that fit one vertical 55- or 30-gallon (200- or 110-L) drum and up to twelve 5-gallon (19-L) safety cans. Sturdy 18-gauge (1-mm) double-wall steel construction offers excellent durability.

Cabinets feature self-latching, three-point locking doors for maximum protection under fire conditions. Latching system engages automatically when the door is pushed closed. Drum compartment features drum rollers in the sump and one half-depth SpillSlope® safety shelf; can compartment includes two full-size adjustable SpillSlope® shelves that direct spills to back and bottom of a 2-in (51-mm) sump.

Sure-Grip® EX Horizontal Drum Safety Cabinets

Use for drum storage or as a dispensing station

• *Complies to OSHA and NFPA regulations.*

• *Double-wall construction with 1-1/2 in (38-mm) insulating air space for fire resistance.*

• *Independently fire tested and approved by FM Approvals.*

Safely house horizontally positioned drums for use in gravity-flow dispensing applications. The interior provides space for a drip-can and includes tracks to guide drum cradle (sold separately below) into position.

Sturdy, 18-gauge (1-mm) welded steel with durable powder-coat finish, inside and out, provides excellent chemical resistance. Three-point, stainless steel bullet latching system ensures positive door closure and maximum protection under fire conditions. U-Loc™ handle comes with a cylinder lock and key set and accepts an optional padlock for added security. Additional safety features include a 2-in (51-mm) leakproof sump to capture dangerous spills, dual 2-in (51-mm) vents with flame arresters, and a built-in grounding connector for proper grounding to reduce static build-up.

Accessories for Drum Cabinets

Makes drum handling easier

Use the cabinet ramp to easily load drums into a cabinet using a cart. Ramp fits over the sill to keep securely in place. Tread design on surface maximizes traction. Fits all styles of Justrite drum cabinets. Load limit is 750-lb (340-kg). Not for use with wheeled drum cradle 08800.

Use drum roller for vertical storage cabinet 8962001 (sold separately above) to easily maneuver heavy drums. Use wheeled drum cradle for positioning a horizontal drum for gravity-flow dispensing.

Ramp side rails provide strength and guidance

Sure-Grip® EX Safety Cabinets for Combustibles

Safe storage for paints and inks

• *Fully compliant to OSHA and NFPA regulations.*

• *Independently fire tested and approved by FM Approvals.*

Easily separate and identify combustible liquids using these red safety cabinets. Adjustable shelves accommodate many smaller paint tins, aerosols and inks found in printing, painting, furniture and motor vehicle operations. Cabinets feature sturdy double-wall, 18-gauge (1-mm) steel construction with 1-1/2-in (38-mm) of air space and dual flame arresting vents. Three-point, self-latching doors close easily and securely for maximum protection under fire conditions. Flush-mounted U-Loc™ handle reduces dangerous catches from passing traffic—comes with double key set and accepts optional padlock for added security. Patented SpillSlope® safety shelves are designed to direct spills to back and bottom into a 2-in (51-mm) leakproof sump. Under fire conditions when illuminated by a flashlight, highly reflective Haz-Alert™ warning labels shine brightly to alert emergency personnel to contents.

Sure-Grip® EX Safety Cabinets for Pesticides

Designed for the safe and secure storage of agricultural and turf management chemicals

- *Double-wall construction with 1-1/2-in (38-mm) insulating air space for fire resistance.*

- *Easy close, 3-point self-latching doors.*

- *Dual vents with integral flame arresters.*

Improperly stored pesticides present a substantial danger to people and the environment. Designed specifically to store pesticides, herbicides, fertilizers and other turf chemicals, these green cabinets feature welded 18-gauge (1-mm) steel construction with powder-coat finish for excellent chemical resistance. SpillSlope® steel shelves fitted with polyethylene tray adjust on 3-in (77-mm) centers to accommodate a wide variety of containers. Thirty-gallon (114-liter) models No. 893004 and 893024 include an additional polyethylene top work tray which can be placed on the top of the cabinet for a handy work surface. U-Loc™ handle comes with double key set and accepts optional padlock for added security. Three-point stainless steel bullet latch provides fail-safe, positive door closure. Cabinets feature trilingual Haz-Alert™ reflective warning label and leveling feet.

All cabinets meet NFPA and OSHA regulations and are FM-approved. Self-closing models also comply with the International Fire Code.

Safely store turf management chemicals to reduce the risk of accidental poisons and fires.

For indoor maintenance areas in these environments:

- Golf courses
- Park districts
- Amusement parks
- Nurseries
- School campuses
- Lawn care companies
- Farms
- Cemeteries
- Pest control companies

Segregate and identify hazardous materials to ensure a safe working environment.

Safety Cabinets for Hazardous Materials NEW

Identify and safely store hazardous materials such as acids, bases, oxidizers, or toxic materials

High-performance cabinets feature all-welded, 18-gauge (1-mm) double-walled steel construction with 1½-inch (38-mm) air space, a 2-inch (51-mm) leakproof sump, U-Loc™ handle, dual vents with flame arresters, adjustable self-leveling feet, and ground wire connector. Application-specific labels identify contents to safely store and segregate incompatible chemicals.

Self-closing door(s) with a three-point, stainless steel bullet latching system securely close for maximum protection under fire conditions. They self-index and self-latch to close in sequence to ensure a tight closure from top to bottom.

For increased chemical resistance against leaks or drips, steel SpillSlope® adjustable shelves include a polyethylene tray that sits on top of the shelf, as well as a separate polyethylene liner for the bottom sump. The popular 30-gal (114-L) cabinet includes an extra polyethylene work tray that can be placed on top of cabinet for a handy work surface.

Cabinets are FM approved (except for 4-gal /15-L models), and come with a ten-year warranty.

Encased self-closing mechanism provides obstruction-free access to top shelf space. Fusible link melts at 165°F (74°C) to automatically close door(s) under fire conditions.

ChemCor® Lined Safety Cabinets NEW
for Hazardous Materials

Seamless ChemCor® finish protects interior cabinet surfaces from rust and corrosion

For superior protection against corrosion from drips and off-gassing from harsh chemicals, use ChemCor® lined safety cabinets. They feature a unique, flame-coated thermoplastic finish on interior doors, shelves, walls, ceiling, and sump. The non-porous, seam-free surface eliminates the need for corrosion-prone rivets or fasteners. It resists staining and cleans up easily. Popular 30-gal (114-L) cabinet includes a separate polyethylene work tray that can be placed on top of cabinet for a handy work surface.

Cabinets are FM approved (except for 4-gal/15-L models), and come with a ten-year warranty.

Safely store corrosives in fire-resistant steel safety cabinets.

Sure-Grip® EX Classic Safety Cabinets for Corrosives
Specially designed for safely storing corrosives in laboratories

- *Protect laboratories and personnel from damaging corrosives.*
- *Powder-coat finish specially formulated to resist acids, bases and solvents.*

Justrite blue steel safety cabinets for corrosives have the same quality safety features as the cabinets for flammables. All models come with double-wall construction, dual vents, grounding wire connections, adjustable shelves, leakproof sills, three-point self-latching doors and leveling feet. Polyethylene trays fit over galvanized steel shelves and a separate polyethylene liner for the bottom sump helps resist aggressive chemicals. Easily remove the liner for quick cleaning of drips and leaks. The popular 30-gallon (114-L) 2-door cabinets also include an extra polyethylene work tray that can be secured to cabinet top for a handy work surface. An all epoxy baked-on powder-coat finish, inside and out, provides increased chemical resistance. FM-approved.

Using non-flammable corrosives?
See page 55 for quick pouring, translucent polyethylene containers designed to resist acids and caustics.

JUSTRITE®

Sure-Grip® EX Slimline Cabinets for Corrosives
Compact footprint offers versatile storage options

Use Slimline-style cabinets to expand storage capacity—modular size fits nicely alongside existing cabinets. They have all the same features as the larger corrosive safety cabinets including a three-point, self-latching door with U-Loc™ handle, a 2-in (51-mm) leakproof sump, and dual vents with integral flame arresters. For increased corrosion protection, cabinets include polyethylene trays that fit on top of three galvanized steel shelves. Under fire conditions when illuminated by a flashlight, highly reflective Haz-Alert™ warning labels shine brightly to alert emergency personnel to corrosive contents. FM-approved.

Small footprint of Slimline-style cabinets fits the tightest spaces.

Easily expand existing storage capacity by mounting piggyback cabinet on top of Justrite's 30- or 45-gallon cabinet.

Sure-Grip® EX Piggyback Cabinets for Corrosives

Use on bench tops or add to taller cabinets to meet increased storage needs

- *Add up to 17-gallons (64-L) of additional capacity to existing cabinets.*

- *Compact design for easy stacking.*

Create a safe storage area for acids or bases without taking up valuable floor space. Piggyback cabinets are designed to mount on top of 30- and 45-gallon (114- and 170-L), manual or self-closing Sure-Grip® EX cabinets. They can also be used independently and stack easily to provide additional storage. Turn it into a wall-mount cabinet with optional wall hanger assembly No. 25950.

The piggyback cabinets offer the same protection as Justrite's taller safety cabinets for corrosives. Constructed of sturdy 18-gauge (1-mm) thick double-wall, welded steel, they feature 3-point, self-latching doors that close easily and securely for maximum protection under fire conditions. Leakproof 2-in (51-mm) sump captures dangerous spills. U-Loc™ handle includes double key set and accepts optional padlock for increased security. FM-approved.

Free survey promotes workplace safety . . .
Justrite's STUD-E™ survey identifies ways to do your job safely and efficiently—visit justritemfg.com to learn more and sign up.

Sure-Grip® EX Undercounter Cabinets for Corrosives

Take advantage of unused undercounter space

- *Double-wall 18-gauge (1-mm) construction with 1-1/2-in (38-mm) insulating air space.*

- *Leakproof 2-in (51-mm) sump safely captures spills.*

- *U-Loc™ handle includes double key—accepts optional padlock for increased security.*

Safely store corrosives under a workbench or lab counter for quick and easy access. These safety cabinets incorporate the same quality features as Justrite flammable cabinets but also include galvanized steel shelves with attached polyethylene trays and a separate polyethylene bottom sump liner that can be easily removed for cleaning drips and leaks. Toe kick allows user to stand closer to counter—less leaning and better ergonomics. Toe kick dimensions are 3.5 in (89 mm) H x 2.5 in (64 mm) D. Baked-on blue epoxy powder-coat finish—inside and out—resists acids, bases and solvents for added chemical resistance. FM-approved.

Self-latching doors include paddle handle with cylinder lock and keys.

Extra Accessories

Equip your safety cabinet with accessories for storage versatility

- *For dark blue hazardous material cabinets on pages 26-27.*

- *For light blue corrosive cabinets on pages 28-31.*

Justrite galvanized steel shelves hold up to 350-lb (159-kg) and adjust on 3-in (76-mm) centers to meet specific workflow needs. Customize your cabinet by adding shelves to increase storage space and accommodate different sized containers. Place polyethylene trays over shelves for corrosion protection when storing corrosive liquids. Three options are available—combination shelf with poly tray, shelf alone or poly tray alone.

Save floor space and use optional wall hanger assembly on smaller cabinets when wall mounting is desirable. Two kits are available—for 4-gallon (15-liter) and 12- and 17-gallon (45- and 64-liter) Justrite safety cabinets.

ChemCor® Lined Safety Cabinets for Corrosives

Superior corrosion protection combined with fire protection in a single cabinet

• *100% seamless thermoplastic coating inside the cabinet.*

• *Double-wall, 18-gauge (1-mm) welded steel construction.*

• *2-in (51-mm) leakproof containment sump.*

Get complete protection from harsh acids and corrosive chemicals plus the durability and fire protection of Justrite steel cabinets in a single unit. Unique, flame-coated, nonporous thermoplastic coating lines walls, ceiling, sump, inside doors, and shelves for superior protection from rust and corrosion. Specifically formulated powder-coat finish on cabinet exterior provides long life and extra resistance to deterioration from harsh chemicals.

All ChemCor® Cabinets include two labels—"Base" or reflective Haz-Alert™ "Acid"—to be placed by the end user. SpillSlope® shelves adjust on 3-in (77-mm) centers to accommodate a wide variety of containers. Three-point stainless steel bullet latch provides fail-safe, positive door closure. U-Loc™ handle comes with double key set and accepts optional padlock for added security. Other features include dual vents with flame arresters, grounding connector, and adjustable leveling feet.

Under fume hood cabinets feature a 4-in (102-mm) high x 3-in (77-mm) deep toe kick that allows the user to stand closer to the hood which means less leaning and better ergonomics. Cabinet height of 35-3/4-in (908-mm) includes leg levelers installed and extended 5/8-in (15.9-mm).

Under counter (22-gal/83-L) free-standing cabinets feature a smaller toe kick that measures 3-1/2-in (89-mm) high x 2-1/2-in (64-mm) deep. Free standing 30-gallon (114-L) models No. 8930022 and 8930222 include an extra polyethylene work tray which can be used as a handy work surface on the top of the cabinet.

1. Internal ChemCor® coating guards against deterioration from spills and off-gassing from harsh chemicals. Seam-free, non-porous surface resists stains and cleans easily.

2. Fusible link on self-closing models melts in the event of a fire to automatically close doors if inadvertently left open.

For protection when storing harsh, non-flammable corrosives . . .

Justrite's 100% polyethylene cabinets are the solution— available for undercounter or countertop use. See page 34 for details.

Global Protection
Justrite products are available worldwide. For pricing and availability, simply contact the authorized distributor nearest you.

Polyethylene Acid Cabinets

One-piece construction provides excellent resistance to harsh acids and corrosives

These blue, hollow-bodied, polyethylene cabinets withstand highly corrosive acids and offer maximum protection against chemical corrosion and leaks. Both models are clearly labeled for ACID contents and accept a padlock (not included) for added security.

Countertop Cabinet stores up to two 1-quart (4-L) bottles. Door can be hinged from either side for best worktop space utilization. Polyethylene spill tray inside contains leaks and can be removed for easy cleaning. A separate polyethylene tray stores under the cabinet and can be used as a handy work tray.

Undercounter Cabinet holds up to thirty 1-quart (4-L) containers. Two segregated compartments each with an adjustable shelf let you store a variety of containers while recessed area in both doors hold small containers. Two removable sumps slide out for easy cleaning of incidental spills. Two vent holes (with removable caps) at rear accommodate pressurized vapor removal systems.

Store harsh acids under a counter for safe, convenient access.

Wood Laminate Acid Cabinets

Durable and highly chemical-resistant

Safely store highly corrosive liquids such as phenol, nitric acid and sulfuric acid in these wood laminate storage cabinets. Long lasting wood construction along with stainless steel handles and hinges provide exceptional resistance to corrosion from harsh acids. Shelf adjusts on 1-1/4-in (32-mm) centers to accommodate a wide variety of containers. Cabinets include adjustable leg levelers, Haz-Alert™ reflective labels, and double key set for safety and security.

Countertop model 24120 is ideal for smaller quantities used at workbench level. Use the undercounter model 24140 as a free standing piece. It includes a removable, easy-to-clean polyethylene work surface top that is recessed 5/8-in (16-mm) to help contain incidental leaks.

Solid Polyethylene Acid Cabinets

Sturdy, smooth construction in an attractive design

- *Suitable for highly aggressive liquids—no metal parts to corrode.*

- *Three-point door latch on larger units offer secure closure and vapor control.*

- *Toe kick on undercounter model allows user to stand closer to counter—less leaning, better ergonomics.*

Solid polyethylene white acid cabinets have excellent chemical resistance to handle the most corrosive chemicals. A protective, all-welded bottom sump and a clean, sleek design complement any laboratory settings. Fully welded, liquid-tight 2-in (51-mm) sump contains accidental spills and makes clean up a snap. Shelf on larger units adjust on 3-in (76-mm) center. Door accepts a padlock for security.

JUSTRITE®

Double sided tape is provided for mounting on surfaces that should not be penetrated by hardware such as safety cabintes.

Document Storage Boxes

Keep your important papers readily available while protecting them from moisture and dirt

Safely store manuals and documents in these weather-resistant polyethylene storage boxes. Each box is bright red for high visibility and features a smooth area for labels. Use the label pack provided that includes two blank labels and labels printed "SDS" and "Instruction Manual". Boxes come with heavy-duty double-sided tape for easy installation. Large size accepts SDS binder; medium and large sized units accept padlock when security is a concern.

Ideal for storage of:

- Safety data sheets
- Instruction sheets
- Receiving bills
- Evacuation plans
- Schedules
- Plant layouts
- Inventory checklists
- Operator manuals
- Emergency contacts
- Certificates
- Medical records

VaporTrap™ Safety Cabinet Filter

Improves your work environment by reducing employee's inhalation exposure to VOC's

Install a VaporTrap™ Filter to reduce harmful VOC vapors inside your safety cabinets. Activated carbon filter medium contained in a stainless steel mesh cartridge adsorbs the volatile organic chemical vapors from cabinets storing flammable liquids. Sturdy 4-in x 5-1/2-in (102-mm x 139-mm) magnetized base offers flexible placement anywhere within the cabinet. Date notation area on label serves as a reminder for replacement; life cycle varies based upon vapor types and concentrations.

Description	Nom. Dimensions Filter L x D	Model No	Ship Wt lb/kg
VaporTrap™ Filter (2 pk.)	8.75 x 2.25 in (222 x 57 mm)	29916	4/2

Note: Due to variables such as the chemical itself, its purity, or its vapor pressure, temperature, humidity, charcoal age, etc., it is difficult to estimate VOC vapor adsorption rates. The Justrite VaporTrap™ Carbon Filter is not intended to be used as a substitute for using safe closed containers as required by OSHA and the EPA. It is important to clean up spills and residues from the cabinet and containers.

2 Pack
29916

For increased safety, position one or two VaporTrap™ Filters anywhere inside the cabinet.

Safety Cabinet Accessories

Accessories offer organization and convenience

Steel Shelf Dividers fit all Justrite cabinets with 14-in (355-mm) deep shelves. Simply place over shelf and slide into position as desired.

Seismic Bracket Kit provides increased stability—ideal for earthquake or hurricane prone areas. One kit secures any safety cabinet to a wall or floor. Because there are no holes created, the fire protection properties of the cabinet remain intact and the cabinet maintains FM approval.

Leg Riser Frame provides sturdy, stable support for easy relocation of empty cabinet with forklift or pallet jack. High leg frame makes it easy to clean underneath and keeps cabinet away from floor moisture. Includes leg levelers and safety warning label: "Forklift Only When Empty".

Rolling Cart makes it easy to move a heavy safety cabinet—transport solvents and chemicals directly to your work area. All welded 1/8-in (3-mm) thick heavy-duty steel and 5-in (127-mm) poly caster wheels with brakes for added safety. Push handle is removable. Fits any cabinet 43-in W x 18-in D (1092-mm x 457-mm) with a maximum height of 44-in (1118-mm).

Durable, weather resistant aluminum construction offers long-lasting, safe storage of LPG and compressed gas cylinders.

Aluminum Cylinder Lockers

No rust solution to storing LPG and compressed gas cylinders

• *100% welded aluminum construction won't rust, corrode or discolor.*

• *Exclusive solid roof panel slants to back to shed water and ice.*

• *Ships fully assembled—saves set-up time.*

Heavy gauge, 0.065-in (1.65-mm) thick aluminum mesh and extruded (not bent) frame add rigidity to these cylinder lockers. Wire mesh sides prevent dangerous build up of flammable gases. Heavy-duty, all welded aluminum construction provides superior strength yet is 66% lighter than steel for easy placement and handling—saves on shipping cost. Thick metal panels and welded security lug (order padlock separately) on front panel deter tampering. Aluminum naturally stands up to abusive outdoor conditions and keeps your property clean. Includes 4 labels—2 warning and full/empty cylinder identification.

Lockers meet NFPA 58 for LPG storage and OSHA 1910.110 regulations. LPG vertical lockers also comply with Canadian Standards Association CSA-B149.2.

1. Sloped roof design sheds water and ice. Solid top reinforces stability.

2. Includes warning and identification labels.

3. Extruded 0.125-in (3-mm) thick, heavy aluminum framework provides superior strength.

4. Easy-to-use rack positions cylinders securely and stores 20- and 33-lb (9- and 15- kg) cylinders.

5. Heavy, expanded, 0.065-in (1.65-mm) thick aluminum mesh panels and all-welded construction resist abusive outdoor elements— won't rust or discolor.

6. Padlock lug for security.

7. A pre-drilled hole at each corner accepts 0.5-in (12.7-mm) anchor bolts for maximum security and stability.

8. Cylinders stay clear of ground with heavy-duty bottom rack on horizontal locker or strong floor plate on vertical storage locker.
